

MARGALOPE

Daytime

EVERY EXPLORER NEEDS A MAP

Introducing StrainFinder: A better way to find out what cannabis strain suits you.

Going beyond Indica, Sativa and Hybrid classification, StrainFinder pinpoints what strain is right for you. Backed by our own rigorous scientific analysis, industry data and consumer feedback, this tool guides every cannabis journey. Because finding cannabis just right for you, is important to us.

LINEAGE:

Chocolope x Frozen Margy
Sativa-dominant

TERPENES:

Terpinolene, Ocimene, Limonene

FLAVOR & AROMA:

Complex citrus and floral notes with a back note of skunkiness

DESCRIPTION:

One of the most terpene-rich hybrids we offer at 3-4% total content, Margalope is a Cannarado Genetics creation with a serious pedigree. The Frozen Margy is a special line with elements of Chemdog, OG, and Sour Dubble that is named for its trichomes, which are so large that they resemble the grains of salt on a margarita rim. The aroma and flavor blend the best of the fruity-floral Chocolope and the rich, sharp gas of the Margy.

As a Sativa-Indica hybrid of the highest order, the effect potentially straddles the line between invigorating and smoothly relaxing.
