LINEAGE:

White Fire OG #43 x Chemdog D

Indica-dominant

TERPENES:

Myrcene, β -Caryophyllene, Limonene

FLAVOR & AROMA:

Rich, earthy gas with notes of pine and skunk

DESCRIPTION:

WiFi #43 is a legendary clone-only plant known for its classic OG flavor and its nearly white, trichome-rich appearance. Adding the even-more legendary Chemdog D to the mix makes this hybrid even funkier and more THC-rich... the resulting plant is a gas-lover's dream.

This plant's dense, rounded flowers broadcast a sharp, earthy aroma with an underlying chemical funk, hinting at the potentially powerful experience within. While some users may find an initial mental uplift, the sheer potency of this one may take over quickly, making it best as an end-of-the-night choice.
