EVERY EXPLORER NEEDS A MAP

Introducing StrainFinder: A better way to find out what cannabis strain suits you.

Going beyond Indica, Sativa and Hybrid classification, StrainFinder pinpoints what strain is right for you. Backed by our own rigorous scientific analysis, industry data and consumer feedback, this tool guides every cannabis journey. Because finding cannabis just right for you, is important to us.

LINEAGE:

Chemdog #4 x Sunshine Daydream Hybrid

TERPENES:

Limonene, Myrcene, β-Caryophyllene

FLAVOR & AROMA:

Heavy fuel with a base note of rich earth

DESCRIPTION:

While its name is bright and cheery, Sunshine 4 means business: this plant is mostly Chemdominant, with hints of the Bubbashine (Bubba Kush and Blue Moonshine mostly) further boosting its potent credentials. The aroma is rich and gassy, taking mostly after the Chem but also carrying some of the Bubba's chocolate-meets-earth quality.

For most users, the effect tends to be on the heavier side for a Hybrid, with a slightly numbing and distinct mental and physical quality as well as the Chem's notorious appetite boost. Save this one for dinnertime (or dessert)!
