LINEAGE:

Dutch Treat x Cherry Pie
Hybrid

TERPENES:

β-Caryophyllene, Limonene, Terpinolene

FLAVOR & AROMA:

Sweet, tangy, and slightly woody

DESCRIPTION:

Dutch Treat is an old Pacific Northwest classic, likely containing Northern Lights and Haze lineage. The Haze part of that equation is evident here, with its tangy, Haze-dominant terpinolene-rich scent recalling the best of classic Dutch flavor profiles.

White its aroma seems like it will be a classic Sativa, the influence of the Cherry Pie helps to calm down the effect and boost the color in the flowers. Most users find this to be a nicely balanced "anytime" type of strain, but it does tend to get more potent and relaxing in higher doses.
