## LINEAGE:

Highwayman x NL Haze  
*Sativa-dominant*

## TERPENES:

Myrcene, Terpinolene,  $\alpha$ -Pinene

## FLAVOR & AROMA:

Bright citrus and Haze with notes of funky hops

## DESCRIPTION:

One of our truest Sativas, Highway Lights produces massive plants with a longer finish time than most of the other strains under the glass. Its buds are your typical Sativa structure, looser but absolutely packed with trichomes.

A genuine and traditional Haze type, this cross of Highwayman and a special Northern Lights Haze is a favorite for her unique aroma and towering presence at the grow.
