LINEAGE:

Cereal Milk x KY Jealousy
Hybrid

TERPENES:

Linalool, Myrcene, Limonene, β -Caryophyllene

FLAVOR & AROMA:

Quite citrusy and tangy with an earthy base

DESCRIPTION:

This in-house selected hybrid from Ziplock Seeds has a wide range of influences from the citrusy Mimosa (part of the KY Jealousy) to the earthy, creamy gas present in the Cereal Milk. This plant has a rare balanced terpene profile, with its top 4 terpenes all being nearly at the same levels.

Our Watermelon Milkshake produces beautifully-dense, rounded flowers with very little leaf and a light purple coloration. It takes mostly after the Mimosa aroma-wise and may have a balanced effect with a social quality great for an evening with friends.
